

materiAlias

EN

materiAlias is a project dedicated to gather all materials of our collection in a unique palette, organizing them according to materials, colours and finishes, in order to increasingly widen and simplify the choices of architects and interior designers. The project came up as an integrated material path where every colour, finish and material has been chosen to match with one another down to the smallest detail.

DE

materiAlias ist ein Projekt von Alias, das der Zusammenfassung aller Materialien unserer Kollektion in einer einzigartigen übergreifenden Palette und deren Zuordnung nach Materialien, Farben und Oberflächen gewidmet ist, um die Auswahlmöglichkeiten von Architekten und Innenarchitekten zu erweitern und zu vereinfachen. Das Projekt entstand als eine integrierte Materialreise, bei der jede Farbe, jede Ausführung und jedes Material bis ins kleinste Detail aufeinander abgestimmt ist und miteinander kommunizieren kann.

IT

materiAlias è il progetto Alias dedicato a raccogliere in un'unica palette trasversale tutti i materiali in collezione secondo un ordine ragionato dal punto di vista materico, dei colori e delle finiture, per ampliare e facilitare sempre più le scelte di architetti e interior designer. Il progetto nasce come percorso materico integrato in cui ogni materiale, ogni finitura e ogni colore, sono stati scelti per dialogare bene gli uni con gli altri fino ai minimi dettagli, pur parlando lingue diverse.

FR

materiAlias est un projet dédié à rassembler dans une seule palette transversale tous les matériaux de la collection selon un ordre raisonné en termes de matières, des couleurs et des finitions, pour élargir et faciliter toujours plus les choix des architectes et des décorateurs d'intérieur. Le projet est né comme un parcours de matière intégré dans lequel chaque matériau, chaque finition et chaque couleur, ont été choisis pour bien dialoguer entre eux jusque dans les moindres détails, tout en parlant des langues différentes.

En tant que matériau naturel, des variations de couleur, des fissures et des mouvements peuvent se produire. Ceux-ci sont soumis à des tendances différenciées en fonction de l'exposition aux agents atmosphériques et du type d'environnement dans lequel le produit se trouve.

NATURAL STONES / PIETRE NATURALI / NATURSTEIN / PIERRES NATURELLES

EN

Stones are natural materials, whose features remain unchanged during all the production phases. For this reason the veins, the shades of colour and the slight irregularities could present some variations which are not defects but values which enhance the uniqueness of the product.

IT

Le pietre sono un materiale naturale, le cui caratteristiche rimangono inalterate durante tutte le fasi di lavorazione. Per questa ragione le venature, le tonalità di colore e le lievi irregolarità superficiali possono presentare delle differenze che non devono essere considerati difetti, bensì pregi che esaltano l'unicità del prodotto.

DE

Die Steine sind natürliche Materialien, dessen Eigenschaften während aller Bearbeitungsphasen unverändert bleiben. Aus diesem Grund können die Änderungen, die Farbtöne und leichte Oberflächenunregelmäßigkeiten Unterschiede aufweisen, die nicht als Fehler betrachtet werden sollten, sondern als Qualitäten, die die Einzigartigkeit des Produkts erhöhen.
